

I listen to K-Love daily, in my car, in my office and in my home. K-Love encourages me daily. It's a safe place to listen, and it constantly touches my heart, encourages me, and uplifts my mood. It is heard on FM stations 88.7 and 89.7 in my area. If K-Love was replaced by an LPFM broadcaster, it may not have the same programming that I love and listen to daily. The thought of losing my favorite radio station makes me upset, because I know that if it is taken off the air so many people in our community will lose a great station that is positive and encouraging.

Thank you
Stephanie Courtney
